## Allison reassigned to Marshall's Center Operations Directorate

**P**aul Allison has been reassigned to the Center Operations Directorate at the Marshall Center. In addition to serving as Marshall's Chief Information Officer, Allison also will be responsible for a centerwide Information Technology focus at Marshall. The focus includes computer workstations, file servers and data networks, the Internet, and a multitude of information data streams into and out of the Center.

---

**Security briefing continues Tuesday at 10 a.m., 1:30 and 3 p.m. in Morris Auditorium**

## Center Prepares for ISO Audit

**M**arshall Center Director Art Stephenson has requested that each Marshall organization perform a self-assessment in preparation for the Center's external ISO audit Feb. 22-24 by National Quality Assurance. The surveillance audit will determine the health of the Center's Quality Management System in six key areas: management responsibility; design control; inspection, measuring and test equipment; control of nonconforming product; internal quality audits; and corrective and preventative action. This audit will mark the one-year anniversary of Marshall Center's ISO 9001 certification by National Quality Assurance.

***Marshall Center's safety goal:  
Be No. 1 in safety within NASA!***
